From strategic consulting to UX Research & Design, from mobile development to smart solutions based on Artificial Intelligence, we are part of some of the most important business transformation projects in Italy and internationally. **Assist Digital** is composed of people who have the passion of their craft and believe in the value of their resources to grow and propose innovative solutions.

We are creating a Multi-Competence Team in Tirana and we are looking for a

Senior Front End Developer

What will you do?

You will participate in the design and development of enterprise web solutions by collaborating closely with multi-disciplinary teams paying attention to the quality of the code. You will be personally involved in meetings with customers and will support the Project Manager in the technical management of the project.

You will be asked to analyze the feasibility of new projects or new functionalities and to make any estimates of time and costs in collaboration with the reference project manager and with the other teams involved.

You can propose, evaluate and adopt new technologies to maximize the efficiency of development.

Who are you?

You are a high school graduate or a University graduate, preferably in computer science and have gained 3/5 years of experience in the role of ICT services companies where you participated in significant development projects, relating to one or more digital channels (web, mobile ...) and various industries: Telco, Banking, Travel, Utility.

You have the following requirements:

• Excellent knowledge of JAVASCRIPT (ES6 +) and JS development tools - GULP, BOWER, NODE, WEBPACK

• Excellent knowledge of the JS framework: ANGULAR 2+ and REACT JS

• Excellent knowledge of version control systems: GIT

• Excellent knowledge of HTML5, CSS3, SASS, and LESS

• Excellent knowledge of the BOOTSTRAP framework

• Excellent knowledge of development of responsive and adaptive markups

• Experience in managing multiple tasks at the same time

• Good predisposition to writing tested and maintainable code

• Attitude to team work, knowledge sharing and collaboration

• Interest in knowledge development and innovation

• Written and spoken English

Nice to have:

• Knowledge framework backend Node (KOA Express) JS

• KNOWLEDGE DEVOPS (docker)

• Knowledge of state management libraries (Redux)

• Fluent knowledge of the English language

• Knowledge of the Italian language will be a Plus

The ideal candidate must also be motivated towards counseling as a professional choice, mentally open, curious, with enthusiasm and energy, with excellent communication skills both in writing and in oral presentation.

Available for work trips.

What do we offer you?

A path of growth aimed at enhancing skills. A stimulating work environment where you will have the opportunity to express your passions and increase your skills by working on challenging projects, together with a motivated and passionate work team.

Assist Digital in 2017 obtained the certification as Great Place to Work in Italy.

The research is aimed at candidates of both sexes.
